

Centralise, organise and analyse all your student assessment data with Xuno's **Student Maps**.

Say **goodbye** to hundreds of **spreadsheets** by centralising **all** your student data in one place, year after year, ensuring **easy access** and **consistency of data** across your whole school.

- Create maps for your **assessment schedule, growth analysis, school-wide analytics, handover maps** and more.
- **Create your own assessments** with almost any marking scheme and apply multiple **colour-coding options** to any outcome.
- Access your maps online for easy **access on any device**.
- Add teacher **comments** and unlimited **attachments**.
- Easily access student assessment data from **previous years and semesters**, and show student **growth** and cohort **effect size**.
- **Graph** any set of data with a **single click**, as comparative graphs, progress over time, distribution of results, combined results and more.
- **Compare** student and cohort **achievement** against school, state and/or national **benchmarks**.
- Track **individual student progress** on customisable developmental **rubrics**.
- Use **calculated results** to automatically convert results into other values, for example, Below, At, Above.
- Use Student Maps **alongside your existing school management system** or integrated with Xuno.
